

S36 Surface Disinfectant Concentrate

Super concentrated disinfectant proven to kill 99.999% bacteria within 30 seconds. Effective against all enveloped viruses such as coronavirus. Fragrance-free and non-tainting, suitable for use in all areas including catering and food preparation.

- Super concentrated disinfectant
- Effective against bacteria & enveloped viruses
- Fragrance-free & safe for food areas

- 1 Add clean fresh water to trigger spray or bucket
- 2 Ensure cap is fully closed & invert bottle to fill chamber
- 3 Return bottle to upright position & remove cap
- 4 Dispense dose into trigger spray or bucket

Dilute as above and apply to surfaces. Allow to dwell for at least 30 seconds before wiping or rinsing. For disinfection on heavily soiled surfaces, first use the solution to remove excess dirt, then reapply and allow at least 30 seconds contact time before wiping. For activity against enveloped viruses (e.g. coronavirus) use 2 x 10ml doses per litre of water and allow 5 minutes contact time. Discard unused solutions after 1 week.

Refilling: when your dosing bottle is empty, refill using **S36 C500 5L refill bottle**. Unscrew the cap from your dosing bottle. Using a gloved finger, depress the valve inside the neck of the dosing bottle until it clicks. Then fill the dosing bottle and screw the cap back on firmly.

QUALITY ASSURANCE:

This product is manufactured in the UK by Orca Hygiene Ltd. Produced under ISO9001 Quality Management System and ISO 14001 Environmental Management System.

CONTAINS: BENZALKONIUM CHLORIDE, C9-11 PARETH-8
